### TRUMAN'S HEALTH PLAN

BRISTOL, PA., TUESDAY EVENING, APRIL 26, 1949

Those who think that the Truman Health Program means 'free medicine," or that it is "insurance", or that it will really improve the health of the American people — collectively or with the U. S. Army Paratroopers and Mrs. William Lutketedder at individually—would be wise to get a copy of the American in Holland in September, 1944, will their home in Eddington on Satur-Medical Association's report on the proposal.

Rarely has any national professional body such as the American Medical Association ever had occasion to "take apart" a Wright, son of Frederick and Louise roses graced the center of the table Mrs. Orville Pierson gave a talk President of the United States in such blunt language — not Wright, formerly of Mill road, here. Singing was enjoyed. merely because it opposes the President's program, but for the grossly inaccurate statements he made presenting it.

As to the program in question, here is what the AMA has to say about it:

It is the discredited system of decadent nations which are now living off the bounty of the American people-and if adopted here it would not only jeopardize the health of our people, but would gravely endanger our freedom. It is one of the final, irrevocable steps towards state socialism—and every American should be alerted to the danger.

"There is a good deal of double-talk in the President's message, but what he actually proposes is a national compulsory health insurance system which would regiment doctors and patients alike under a vast bureaucracy of political administrators, clerks, bookkeepers and lay committee.

Those who think of the program as providing "free medicine" would do well to consider this paragraph:

Every wage-earner, every self-employed person and every employer would be compelled to contribute exorbitant payroll taxes, eventually mounting to a tax of 8 to 10 per cent on every payroll, to support this systemand the cost of medical care, instead of being reduced, would be doubled and trebled by bureaucratic over-

### TRUMAN'S HEALTH PLAN

Those who think that the Truman Health Program means free medicine," or that it is "insurance", or that it will really improve the health of the American people — collectively or with the U. S. Army Paratroopers and Mrs. William Lutkefedder at individually—would be wise to get a copy of the American in Holland in September, 1944, will their home in Eddington on Satur-Medical Association's report on the proposal.

Rarely has any national professional body such as the American Medical Association ever had occasion to "take apart" a Wright, son of Frederick and Louise roses graced the center of the table President of the United States in such blunt language - not merely because it opposes the President's program, but for the grossly inaccurate statements he made presenting it.

As to the program in question, here is what the AMA has to say about it:

"It is the discredited system of decadent nations which are now living off the bounty of the American people-and if adopted here it would not only jeopardize the health of our people, but would gravely endanger our freedom. It is one of the final, irrevocable steps towards state socialism-and every American should be alerted to the danger.

Complaining about the glib inaccuracies of the President i his Message to Congress on this subject, the Association continues:

"There is a good deal of double-talk in the President's message, but what he actually proposes is a national compulsory health insurance system which would regiment doctors and patients alike under a vast bureaucracy of political administrators, clerks, bookkeepers and lay committee.

Those who think of the program as providing "free medicine ould do well to consider this paragraph:

"Every wage-earner, every self-employed person and every employer would be compelled to contribute exorbitant payroll taxes, eventually mounting to a tax of 8 to 10 per cent on every payroll, to support this systemand the cost of medical care, instead of being reduced, would be doubled and trebled by bureaucratic over-
